GIS today is very exciting !

Easy **access** to geodata

A few years ago...

Geodata was manageable

...and now

The number of data has exploded

And for users

it's getting worse...

And it will not fix !

OPEN DATA

INSPIRE

WEB

Consequences for organisations

Time loss, money loss and quality loss

And with partners

Who owns what?

Hard to optimize the use of the data

Our Vision

Easy **access** to geodata

Our answer...

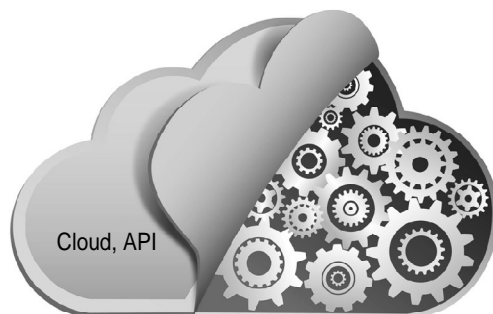

GET A COMPREHENSIVE, UP-TO-DATE AND SHARED CATALOG OF GEODATA

1. **Internally**: use your assets
2. With **partners**: data governance
3. With **INSPIRE**: standards conformant
4. With **citizens**: transparency, collaboration

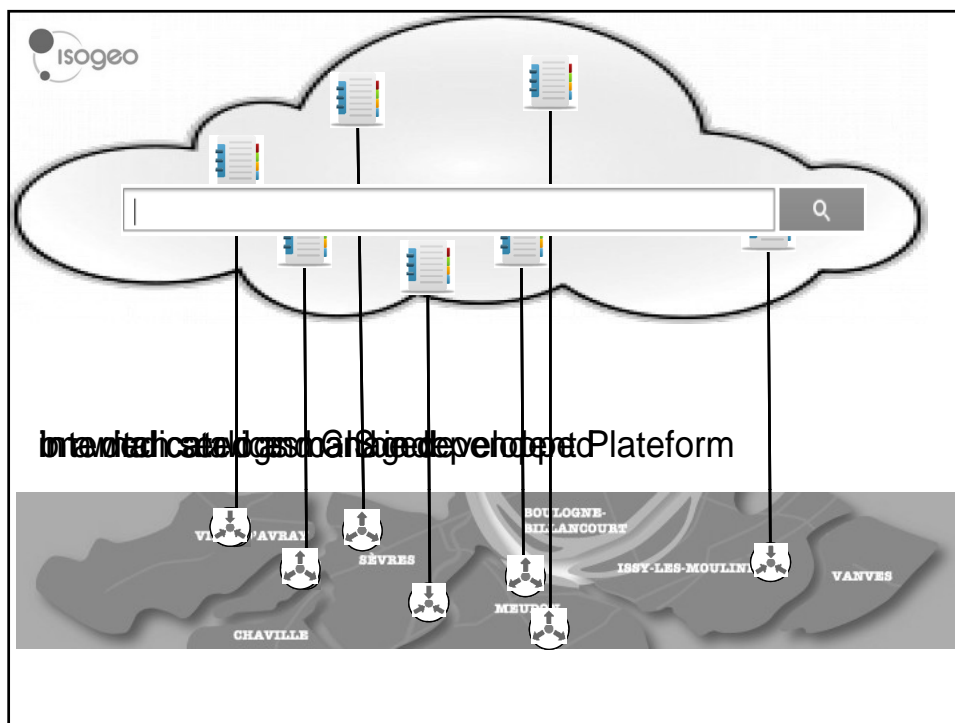

Our answer...

GET A COMPREHENSIVE, UP-TO-DATE AND SHARED CATALOG OF GEODATA
