

NSSTC

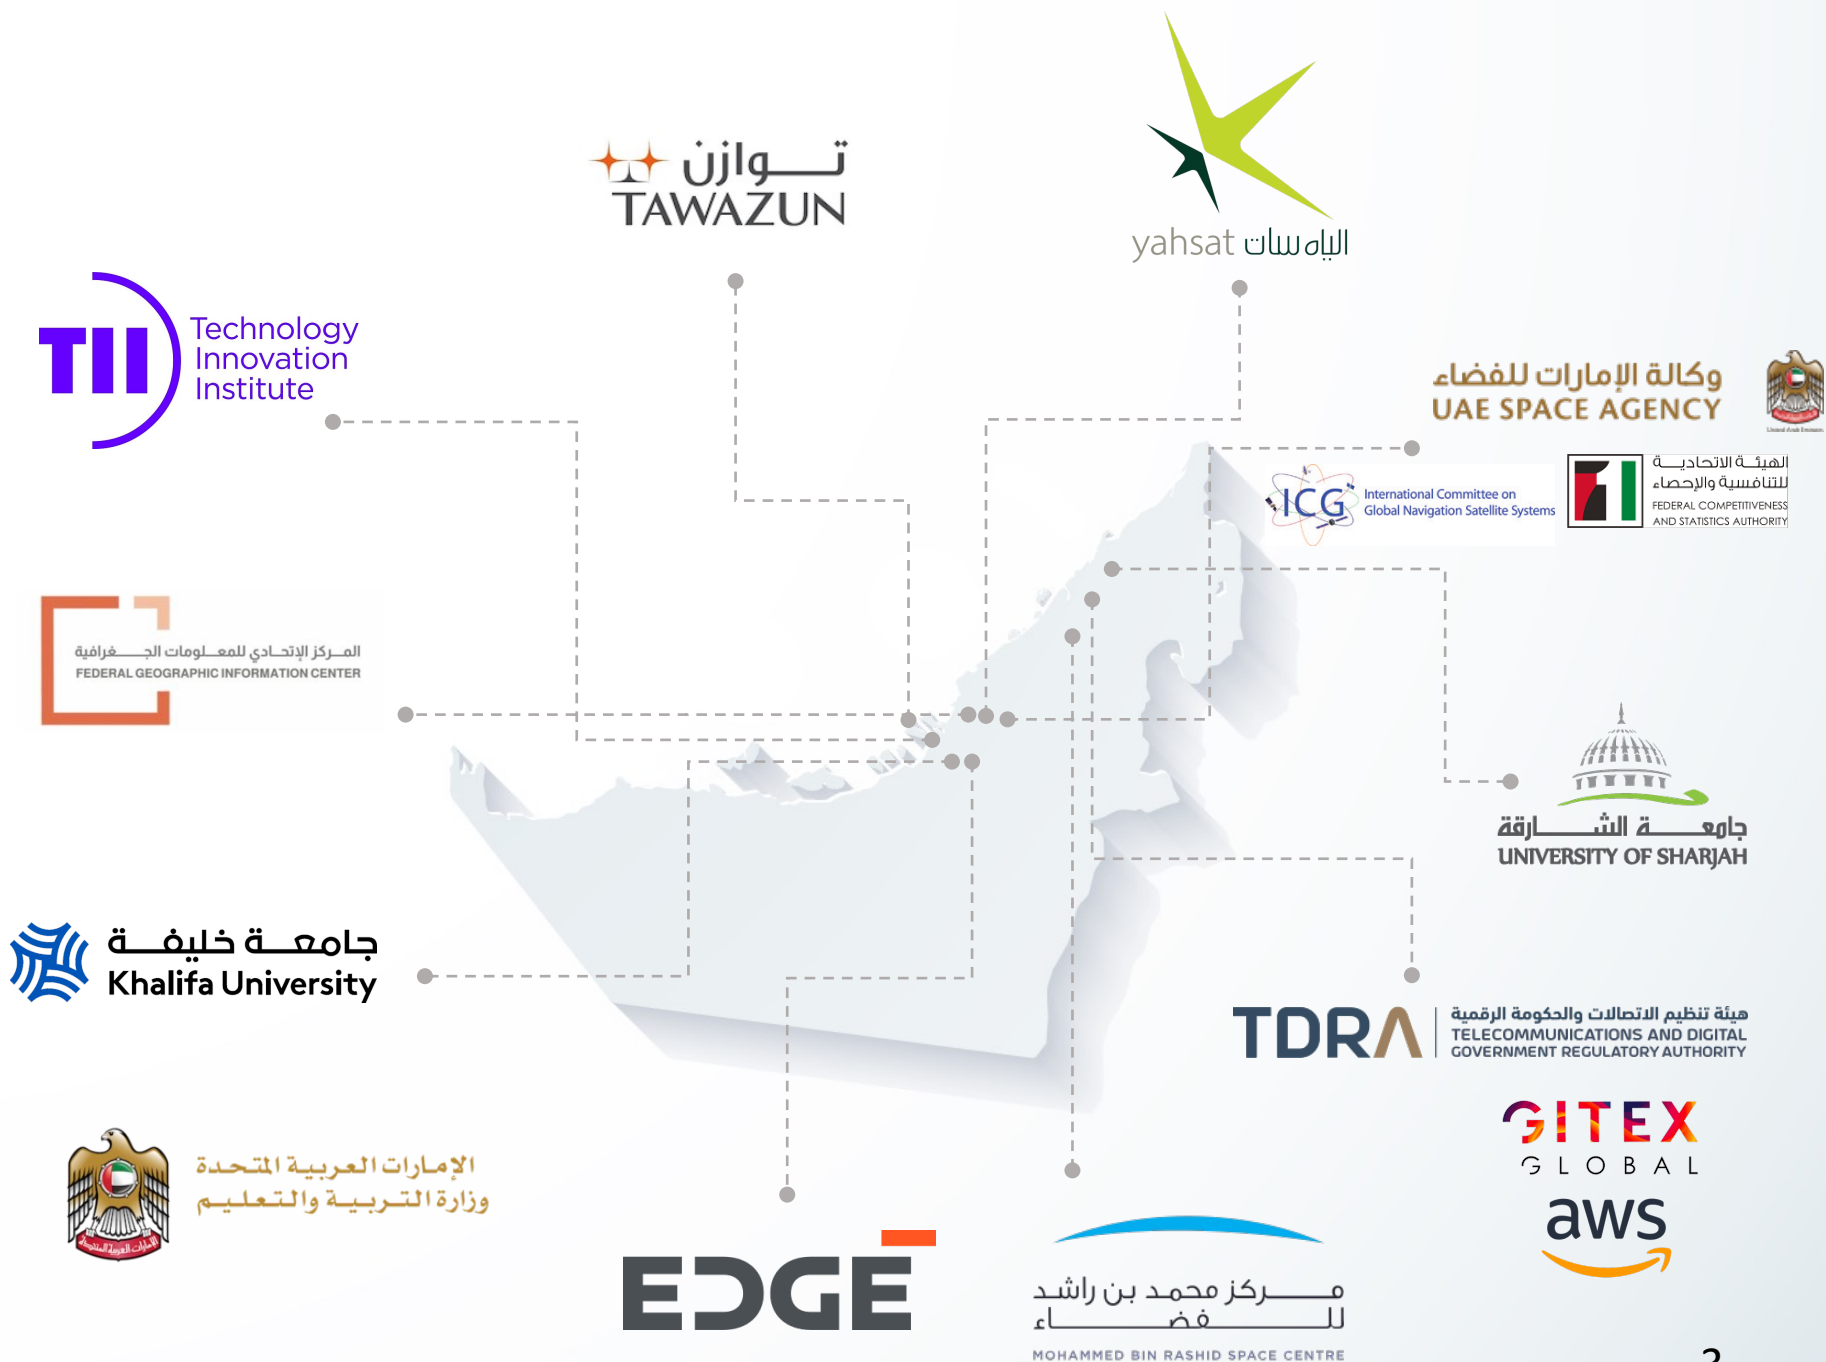

UAE Space Ecosystem

Close partnerships with main stakeholders involved in the country's space ecosystem, from sponsorship to entrepreneurship

Sustainability - Integration
We don't compete, we complement and complete

2-5 May 2023, Rotterdam, The Netherlands

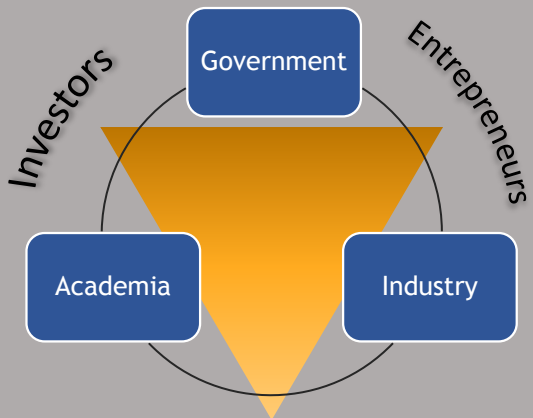

NSSTC

Global Space Ecosystem

Close partnerships with global partners, from partnership to entrepreneurship

Sustainability - Integration
We don't compete, we complement and complete

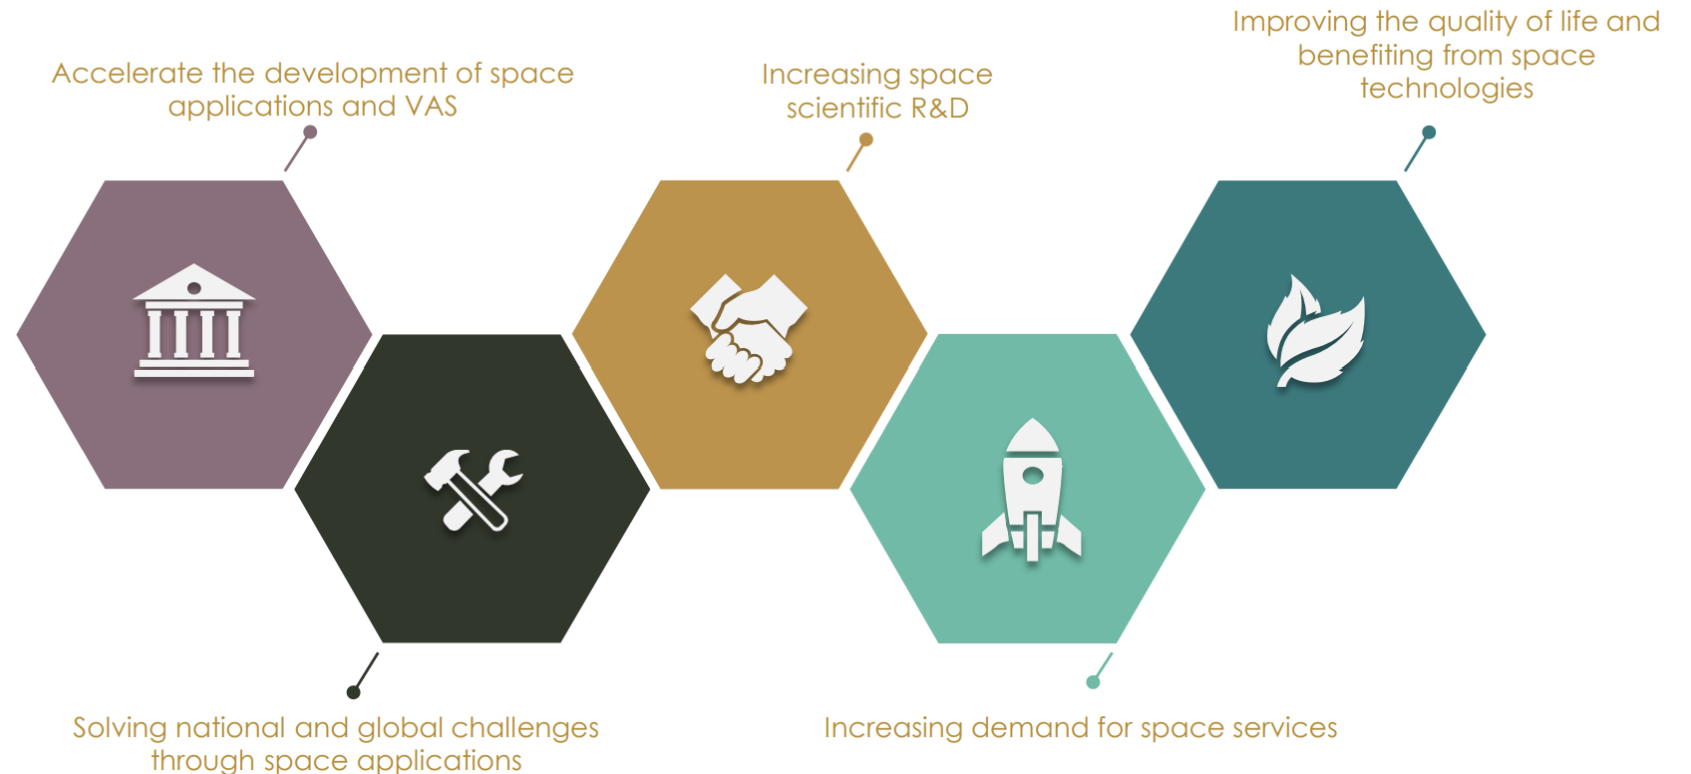

Space Data Center

Objectives

- 1- Innovative analytics platform for Satellite Data
- 2- Establishing international and national partnerships to exchange data and joined projects
- 3- Encourage public-private partnerships
- 4- Encourage SME's and startups to work in the Earth Observations downstream applications

Expected Impacts

NSSTC

Things to think about

Sustainability - Integration
We don't compete, we
complement and complete
