

# Space Sustainability and Threats to Geospatial Assets and Data

**Sarah Erickson**

Space Security Programme  
United Nations Institute for Disarmament Research

**UNIDIR**  
UNITED NATIONS INSTITUTE  
FOR DISARMAMENT RESEARCH

- Outer Space Treaty
- Prohibition of placement in orbit around the Earth any objects carrying nuclear weapons or any other kinds of WMDs, and the installation of such weapons on celestial bodies, or stationing of such weapons in outer space in any other manner, as well as prohibition of their testing and detonations in outer space.

## **Outline of the problem**

- PAROS – Prevention of an arms race in outer space
- Open-ended working group on reducing space threats through norms rules and principles of responsible behaviours
- Group of Governmental Experts on further effective measures for the prevention of an arms race in outer space
- Unilateral action – political moratorium on direct-ascent anti-satellite missile tests.

**What is being done?**

# Space Security Lexicon

Address lack of common understanding of the most frequently used terminology and concepts in space security.
