# Synthetic Wisdom for Perspective on Sustainable Development

May. 2023

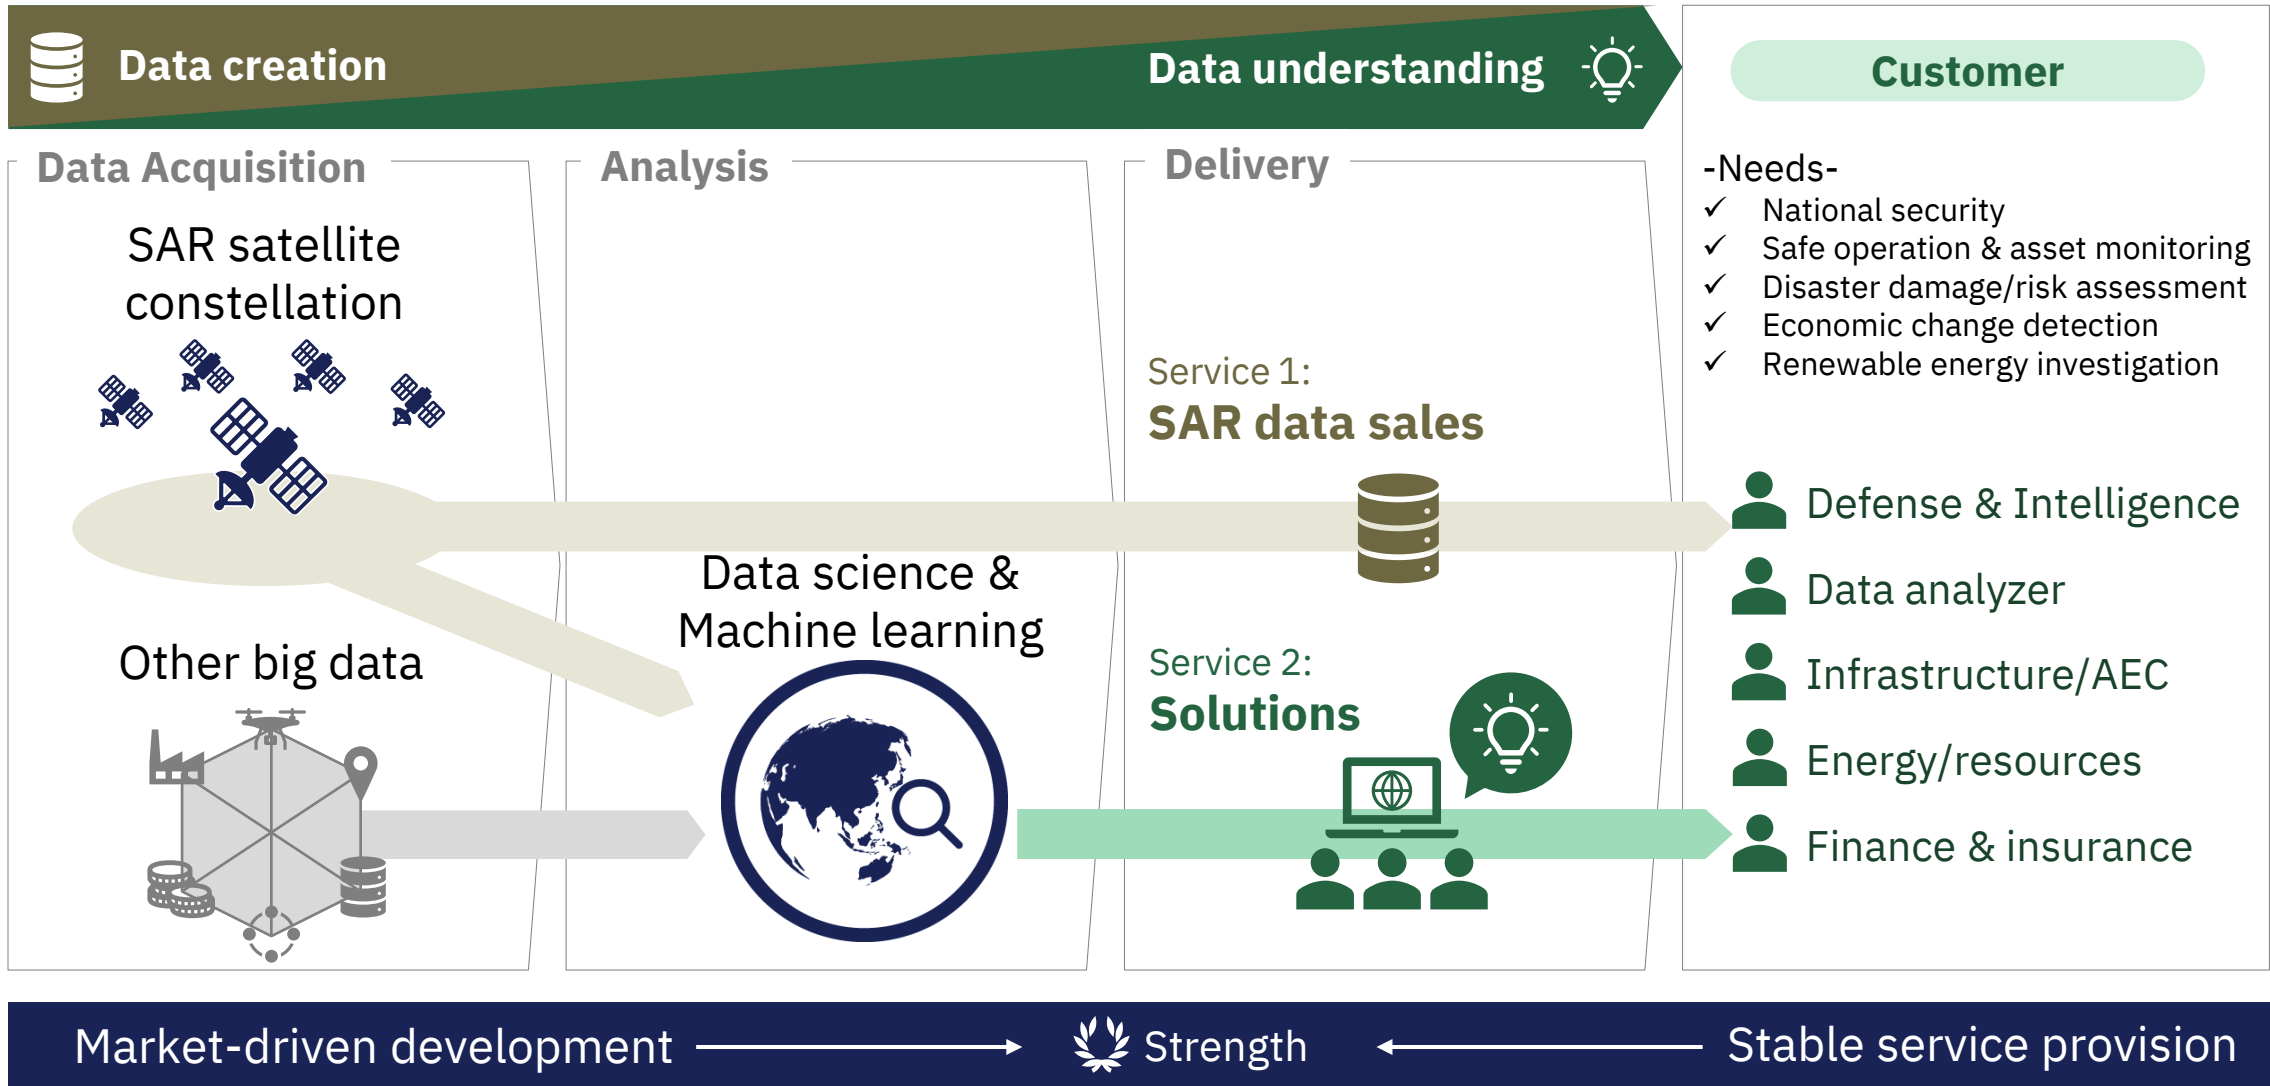

**Motoyuki ARAI**

PhD

Founder and CEO

Synspective provides two services: 1) sales of SAR data by utilizing its own SAR satellite constellation and 2) delivery of cutting-edge solutions using SAR data & analytics

Our SAR satellite StriX will enable the world to acquire reliable, significant, and broad data.

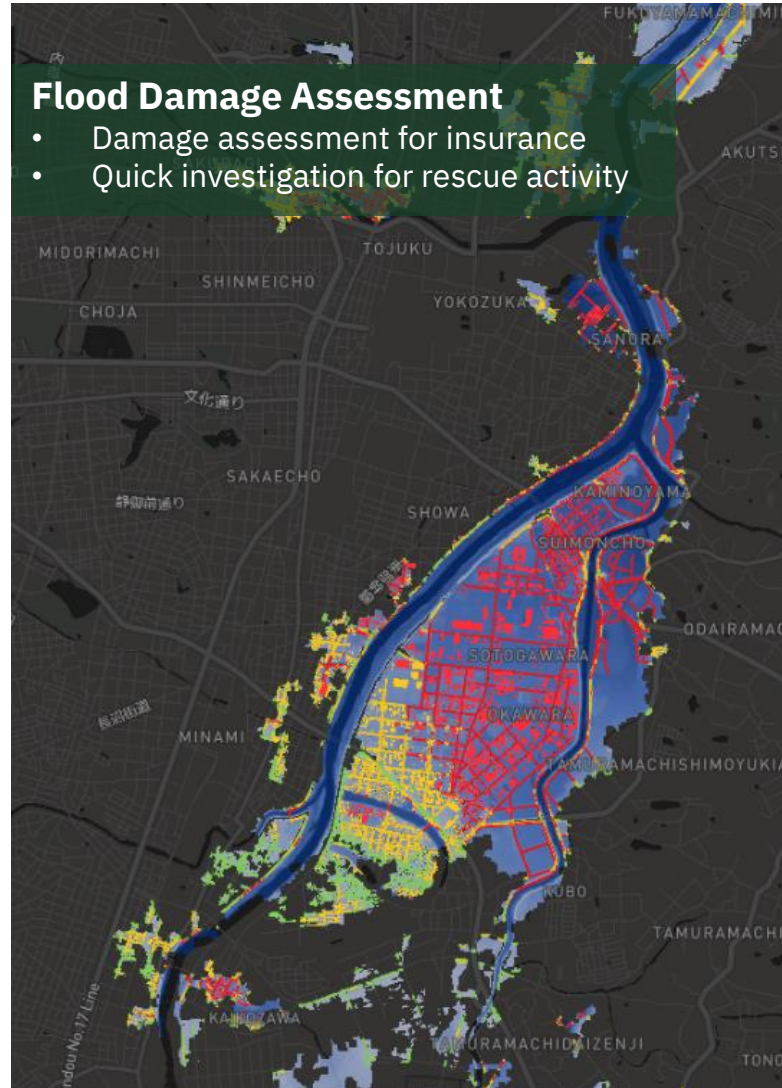

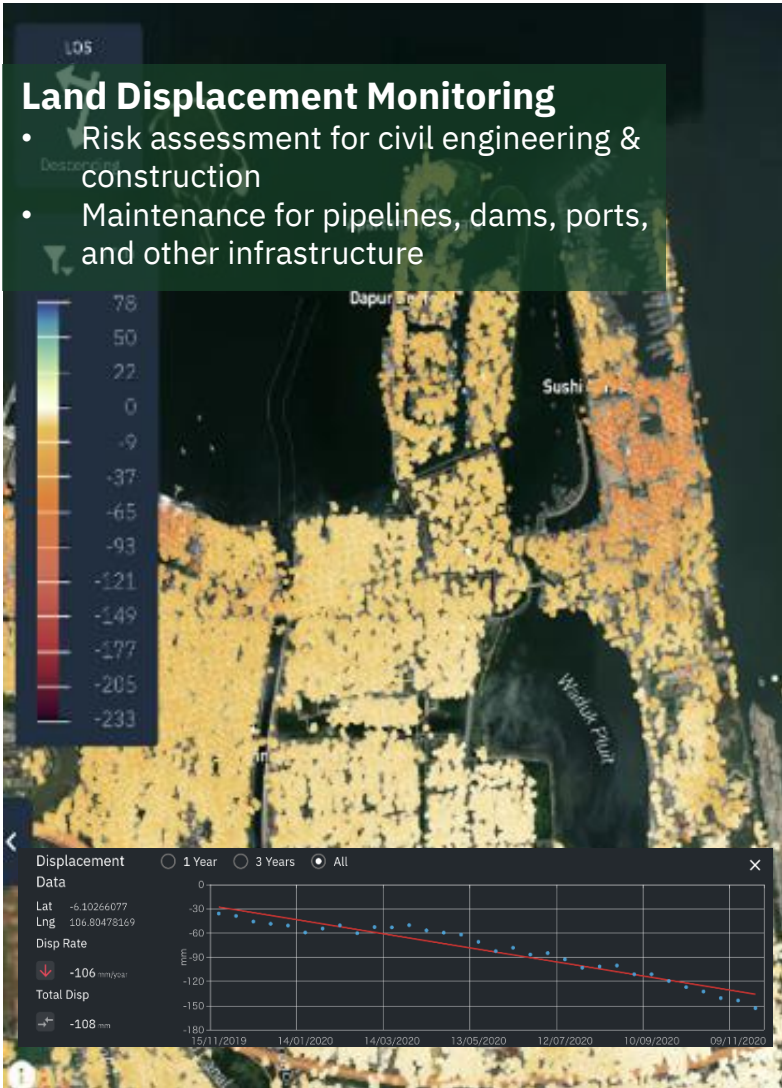

**StriX**

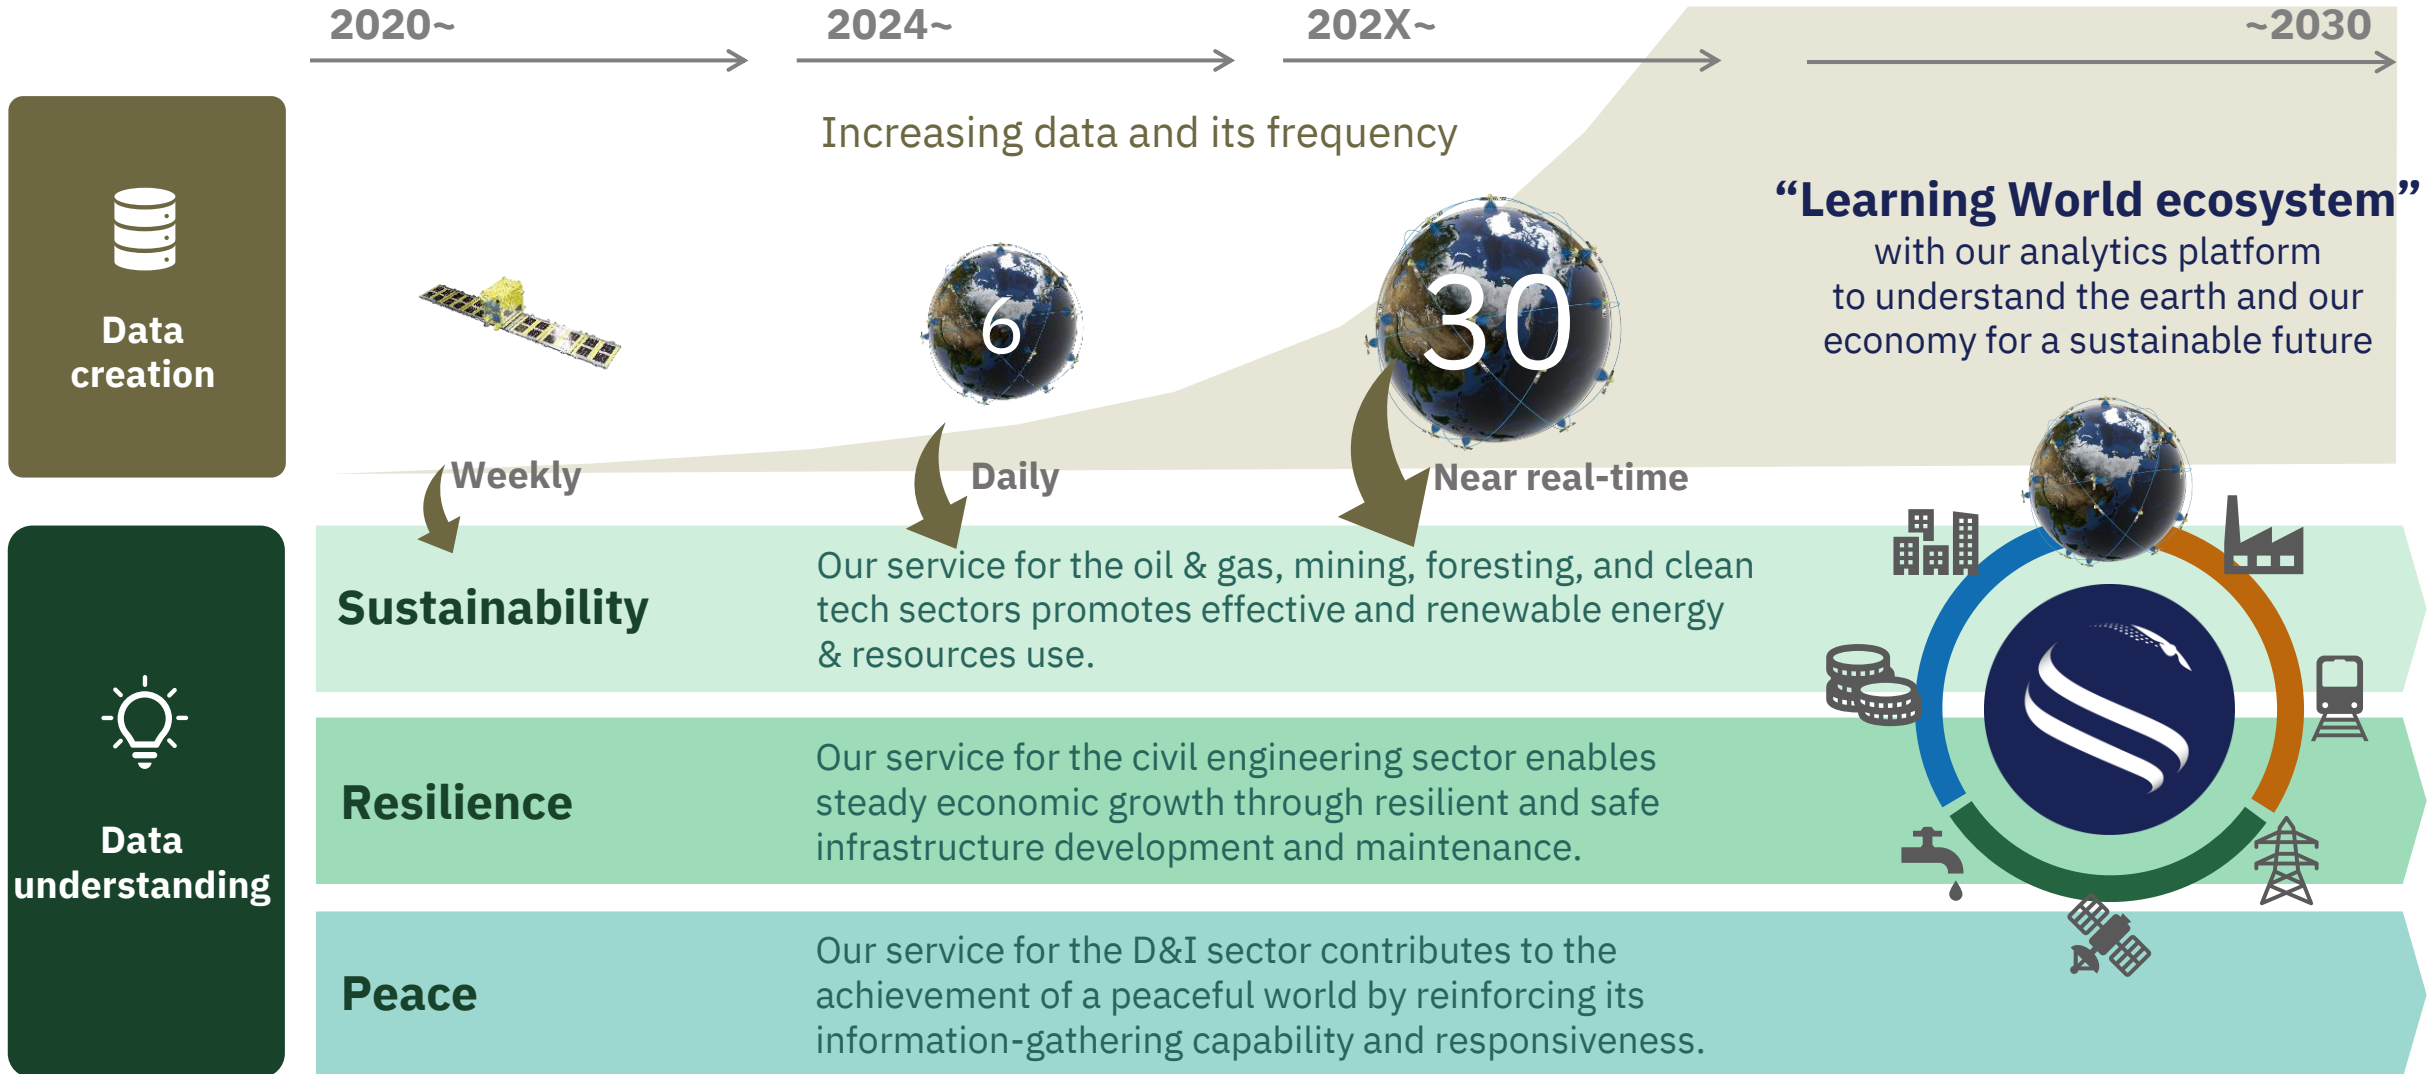

Innovative compact and low-cost SAR satellite, developed by Synspective with JAXA, the Univ of Tokyo, Tokyo Institution of Tech, and others, based on the technical outcome from the IMPACT program.

Our service for the oil & gas, mining, forestry, civil engineering sectors enables operation and asset management to be sustainable, resilient, and safe.

Synspective aims to build the Learning World ecosystem with our analytics platform and SAR data provided near real-time to understand changes and disaster damage anywhere in the world.
