OVERVIEW

Now in its 14th edition, **Geospatial World Forum (GWF)** has become a not-to-be-missed conference for the professionals engaged in geospatial and allied sectors. It is a collaborative and interactive platform that demonstrates the collective and shared vision of the global geospatial community. GWF is an annual gathering of geospatial professionals and leaders representing the entire ecosystem of public policies, national mapping agencies, private

sector enterprises, multilateral and development organizations, scientific and academic institutions, and large end-users from government businesses and citizen services. Best-known for its futuristic themes, engaging content, top-level attendees, and valuable networking opportunities, the Forum will be organized in **Postillion Hotel & Convention Centre WTC Rotterdam, The Netherlands** from **2–5 May 2023**.

GWF 2023 will

Promote

Knowledge & Awareness

Provide

Thought Leadership

Accelerate

Business Development

Facilitate

Networking & Socialization

Drive

Policy Advocacy

Lead

Partnerships & Collaborations

THEME

THEME: GEOSPATIAL CARAVAN EMBRACING ONE AND ALL

“It is not the strongest of the species that survives, nor the most intelligent that survives. It is the one that is the most adaptable to change.”

Charles Darwin (1809–1882)

Geospatial technology, now an indispensable part of our lives, is changing paradigms at an astonishing pace. Creative minds globally are leveraging the power of location to transform different sectors, achieve Goals 2030 and Green Deal, and everything else we can think of. Geospatial technology is interwoven into all that we do.

Each technological breakthrough that includes 4IR presents another opportunity to improve people's lives, and we must embrace each opportunity. And it can be only done by the combined efforts and collaboration of academia – where the seeding of thoughts and innovation takes place, industry – that nurtures these to develop disruptive techs, governments – who facilitate required

and regulated access of the technologies and information to the public, and the end-users – from a plethora of sectors and backgrounds having unique demands gives the ultimate push and sets the directions of the geospatial biome. It's about 'One and All' together ideating and engaging with the entire gamut of the ecosystem.

With the theme **“Geospatial Caravan: Embracing One & All,”** GWF 2023 will bring together the global geospatial community encompassing governments and public sector bodies, industry, academia, and civil society. The goal is to know how we can simplify the technological, institutional, and workflow complexity and augment the impact for the greater good of society.

PROGRAM OUTLINE

TAILORED PROGRAMS TO ACCELERATE INNOVATION AND ADOPTION

INDUSTRY EVENT

DATA & ECONOMY

Land Economy

Space

National Mapping

Hydrography & Maritime

USER FOCUS

GE 4SDGs

GE BIM

Digital Cities

BFSI

Retail & Commerce

TECHNOLOGY FOCUS

LiDAR

SAR

AI/ML

GPR/EML

AR/VR

SPECIAL SESSIONS

Mentoring Panel

Geospatial Women Networking Event

SIDE PROGRAMS

Training Programs

Partner Programs

Closed-door Meetings

Roundtables

And more to come...

SUBMIT ABSTRACTS

Geospatial World Forum gives an excellent opportunity to present your work to global audience from 90+ countries.

Submit your abstracts online at www.geospatialworldforum.org

For submission-related queries, write to:
papers@geospatialworldforum.org

Abstract Submission
Deadline
30 November 2022

Abstract Acceptance
Notification
15 December 2022

SUBMIT AWARD NOMINATIONS

Showcase your geospatial excellence!

Award Categories

APPLICATION EXCELLENCE AWARDS

Exemplary usage of geospatial tools and solutions in various fields

TECHNOLOGY INNOVATION AWARDS

Disruptive innovation that drives wider adoption of geospatial technology in the mainstream

POLICY IMPLEMENTATION AWARDS

Policy framework that directly impacts the development of geospatial science, technology and business

Nomination Deadline: **30 November 2022**

For queries write to awards@geospatialworldforum.org

NETWORK, ENGAGE & CREATE BUSINESS OPPORTUNITIES @GWF 2023 EXHIBITION

Highlights

- 1000+ expected delegates/visitors from 90+ countries
- Special SME/Institutional Corner at competitive rate
- Dedicated time for exhibition visit daily
- Product demo & training programs
- Technology sessions
- Networking receptions

For exhibition related queries please contact: exhibition@geospatialworldforum.org
