Jonathan R Horn
Founder & CEO

**Clear data.
Clear decisions.
Clear impact.**

Understanding nature based assets

Treefera partnering with Anew Climate for:

Coverage

92 forestry projects, spanning an **6mn acres (2.6mn hectares)** on the Treefera platform

Analytics

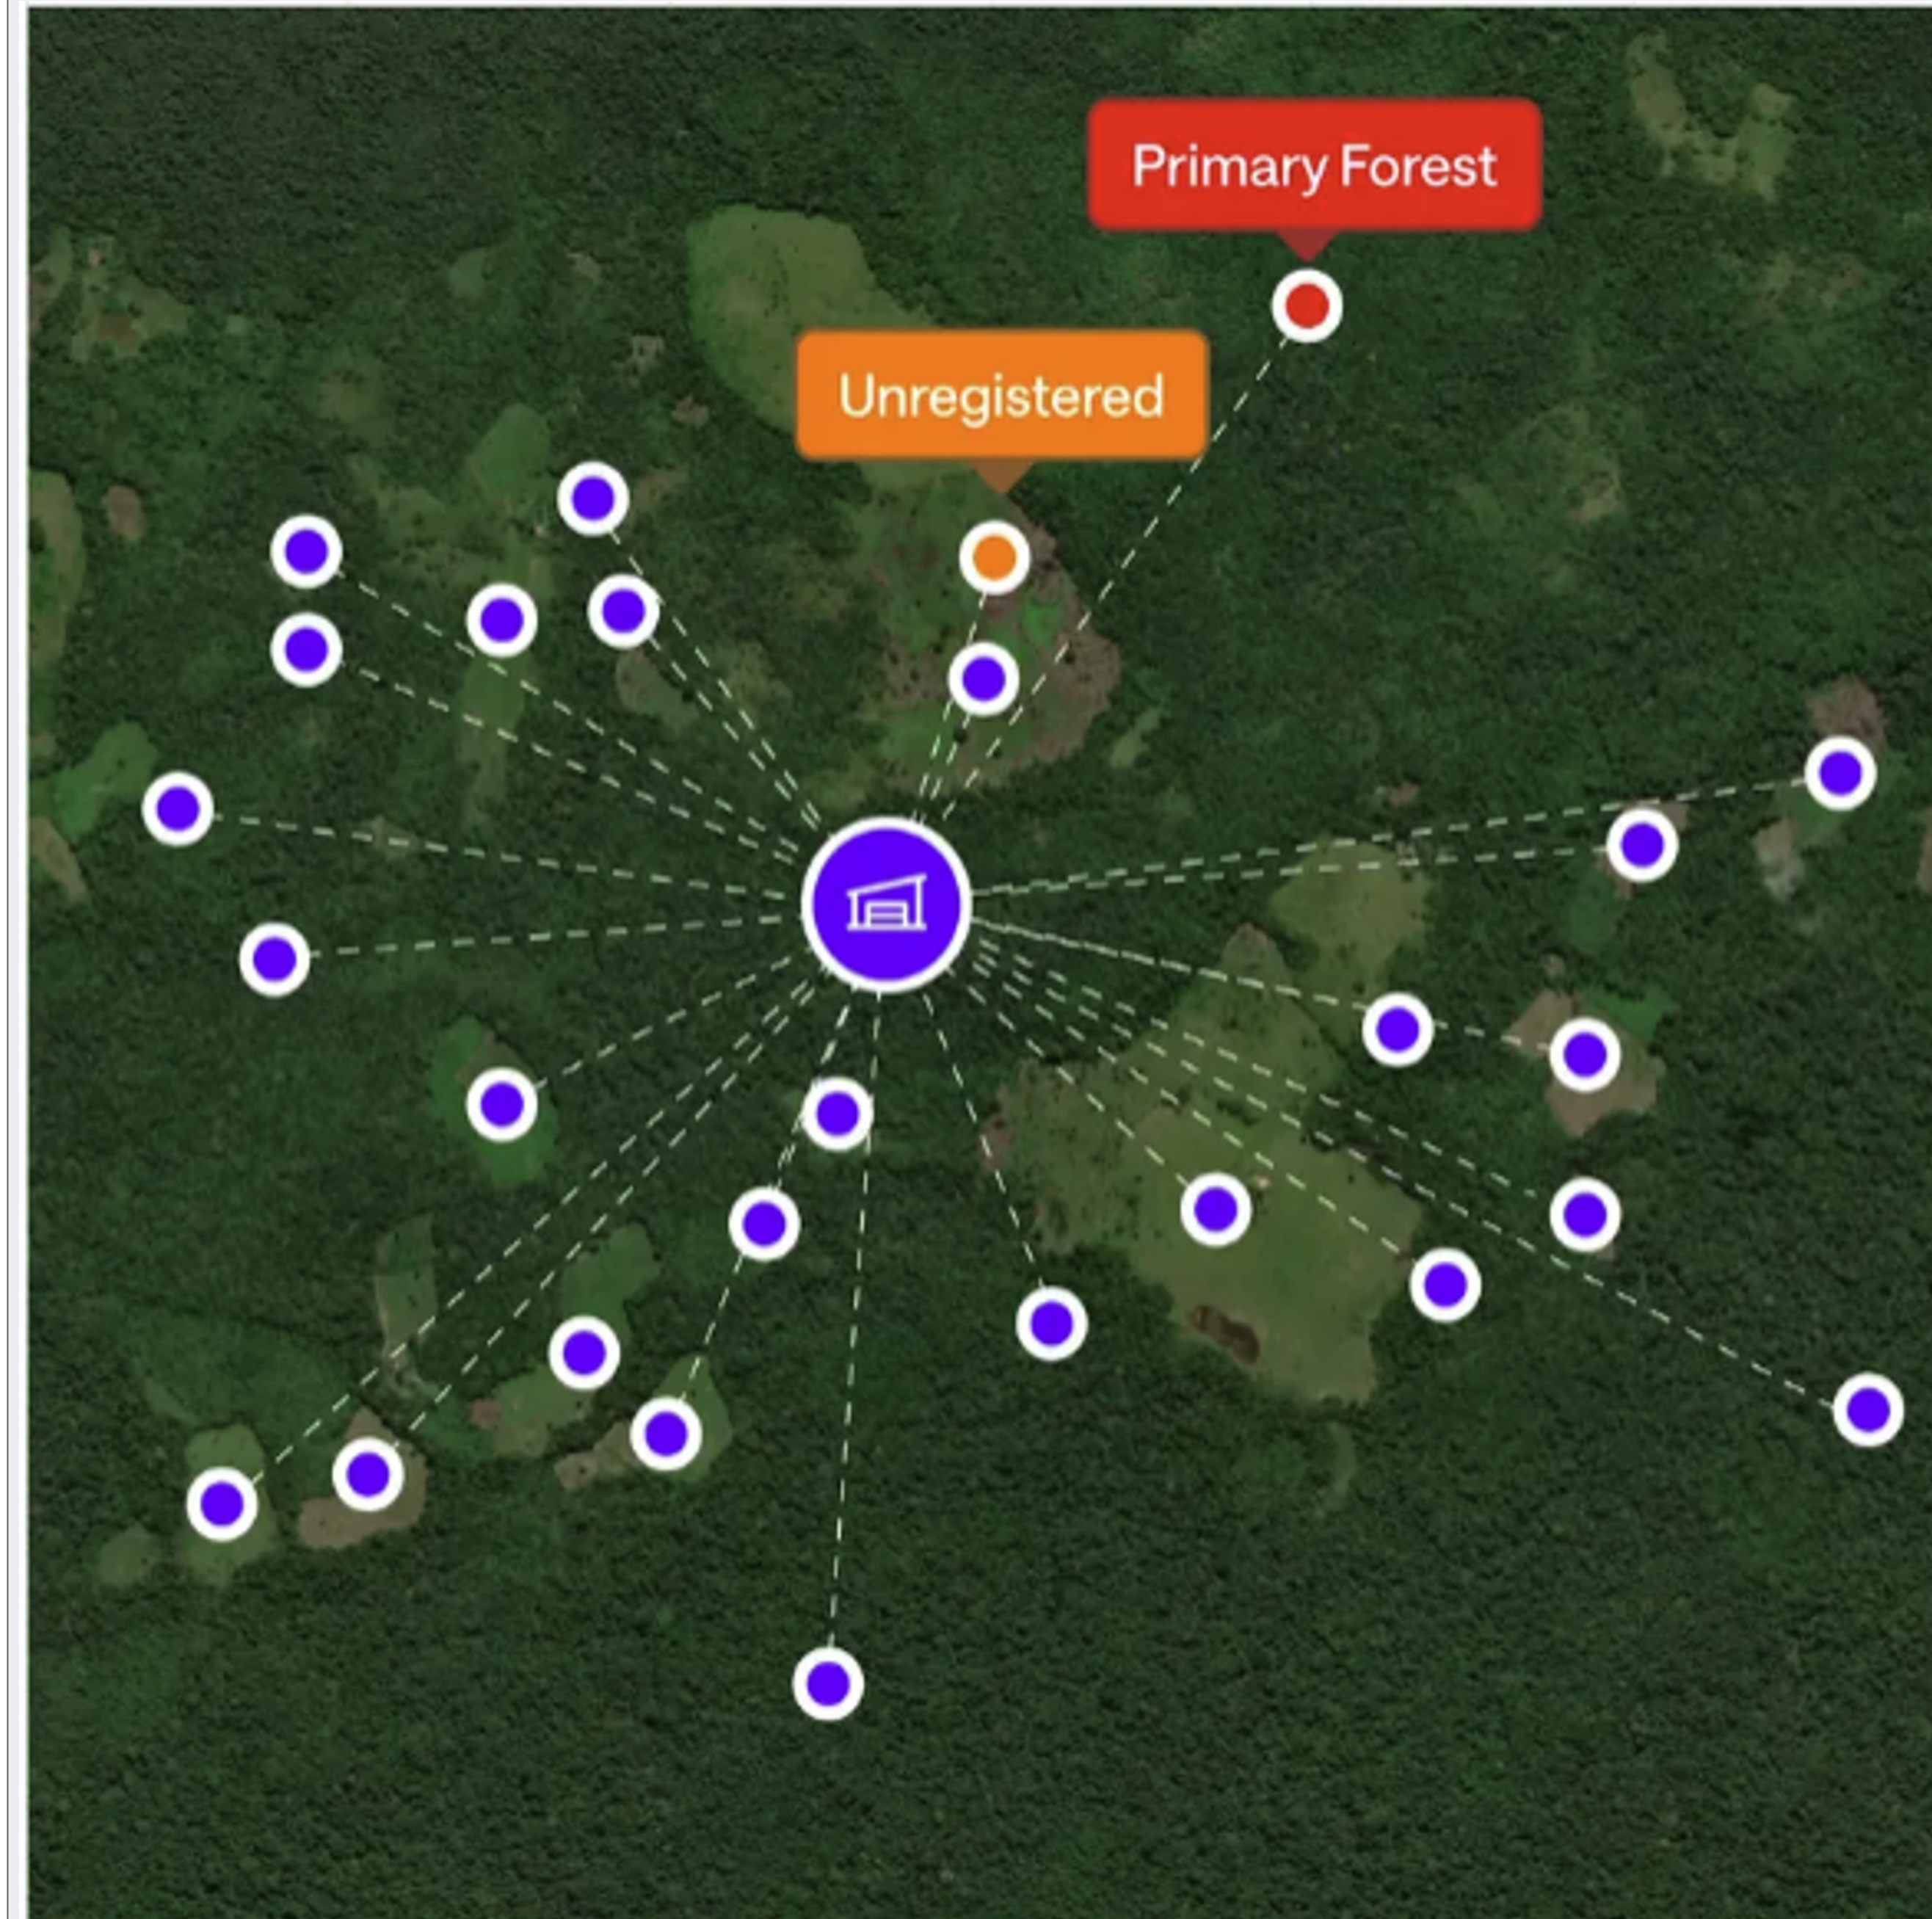

Integrating satellite and ground truth data at scale, Treefera technology delivers groundbreaking analysis through **dynamic baselining**

Insights

Historic and present insights from **2017 to date**, ascertaining delta stocking indices to **demonstrate forest gain and loss**

Monitoring

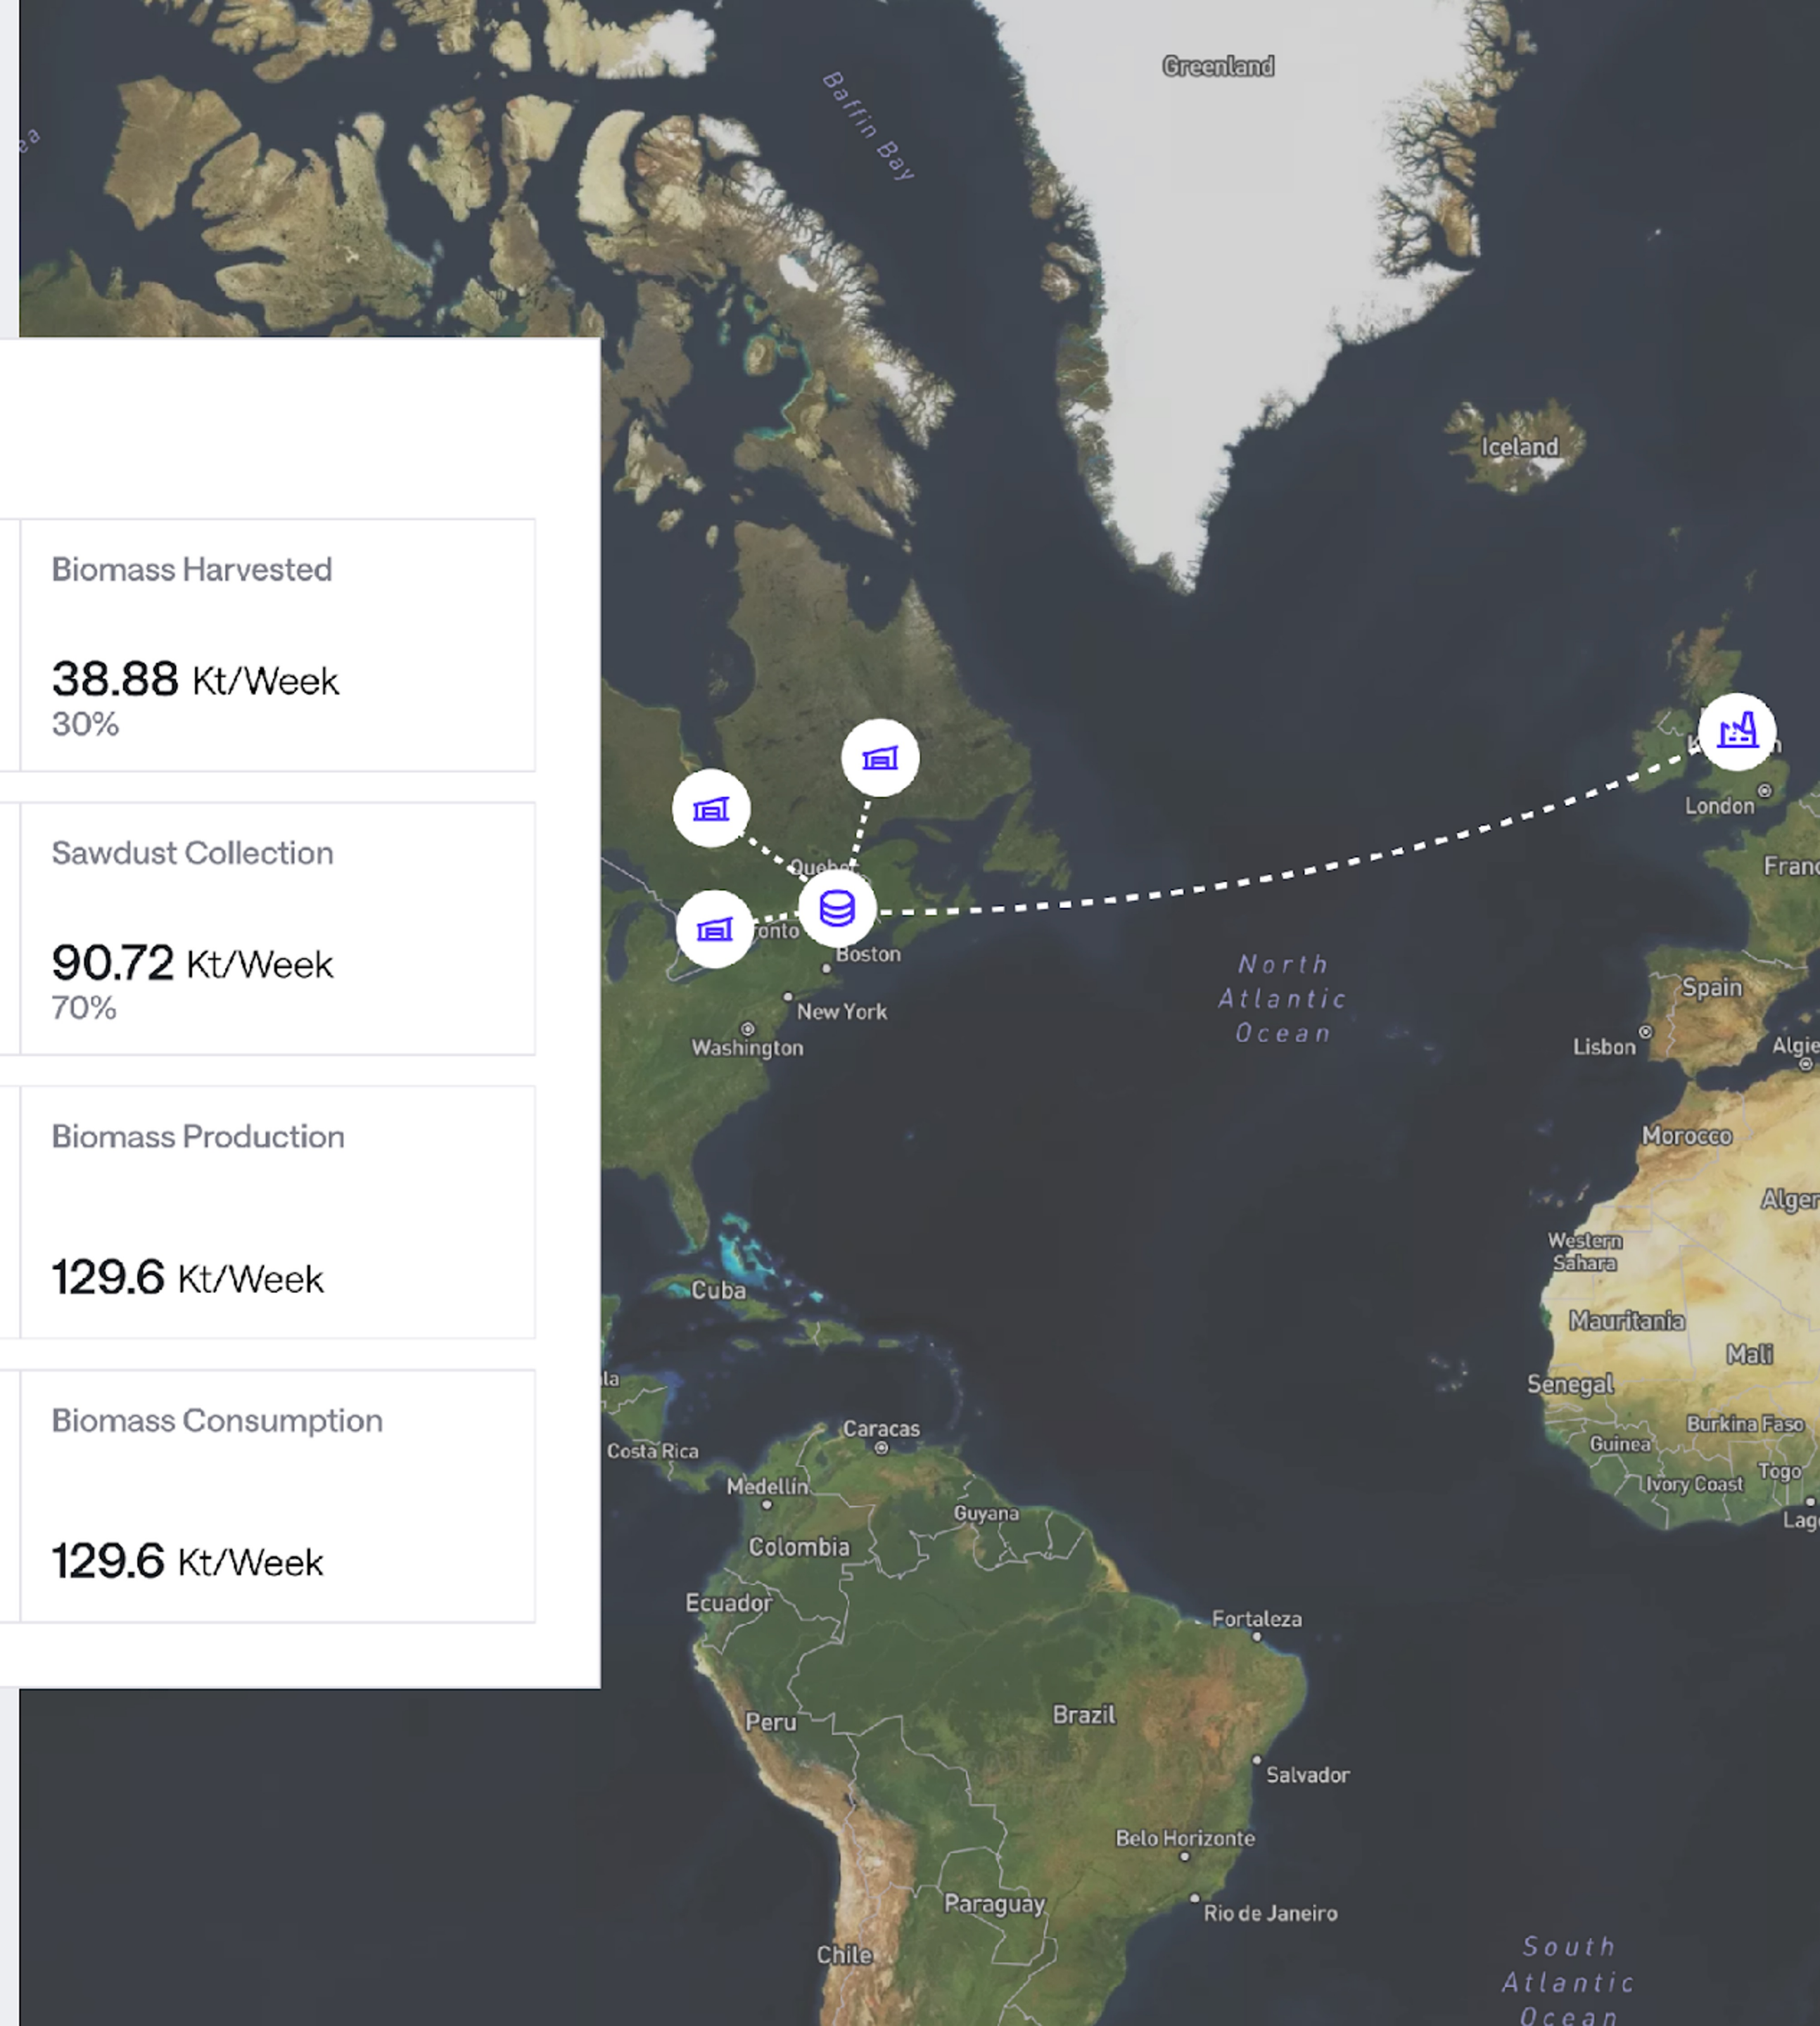

Automated stand and harvest detection and delivering **continuous monitoring** at scale - **6mn acres every month**

Full End to End Supply Chain Integrity

Overview

Harvest Sites	Biomass Harvested
147 ↓1	38.88 Kt/Week 30%
Active Sawmills	Sawdust Collection
2 ↓1	90.72 Kt/Week 70%
Active Pelleting Plants	Biomass Production
2 ↓1	129.6 Kt/Week
Bioenergy	Biomass Consumption
1	129.6 Kt/Week
