SPATIAL IS SPECIAL

**Presentation at the Geospatial World Forum Conference
in Rotterdam on 15 May 2024**

by

Alejandro Guinea de Salas (EUROGI President)

And

Bruce McCormack (EUROGI Vice President)

European Umbrella Organisation for Geographic Information

<https://eurogi.org>

SPATIAL IS SPECIAL ... IT REALLY IS

OVERVIEW PERSPECTIVE

way to consider the role of geospatial in national development

SPATIAL IS NOT SPECIAL

- Arguments focus on narrower technical issues

SPATIAL IS SPECIAL

- Everything occurs somewhere and at some point in time
- Dimensionality
- Scale
- Proximity
- Semantics
- Ethics

- Because Spatial IS Special need a special national effort to
 - Geotag large amounts of data
 - Develop local expertise to exploit
