**SAMMEN
OM BYEN**

KØBENHAVNS KOMMUNE
Teknik- og Miljøforvaltning

Smart city Approach

Data platform

- Open data
- Copenhagen Data Market
- Data tank

Open Data

- Transparency
- Dialogue / empowerment of Citizens
- Growth
- Based on CKAN (Open Source)
- Open Data Denmark
- API CRM

Copenhagen data market

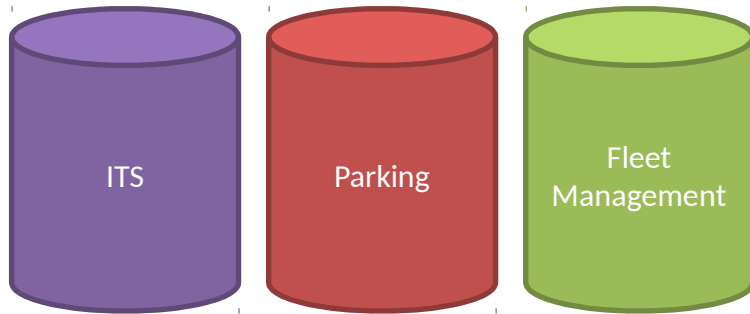

- Business model to collaborate around data
 - Business value data
- Apps with a sustainable business case
- Consortia with CLEAN, City of Copenhagen, The Capital Region of Denmark and Realdania (Private fund).

Copenhagen Data Tank

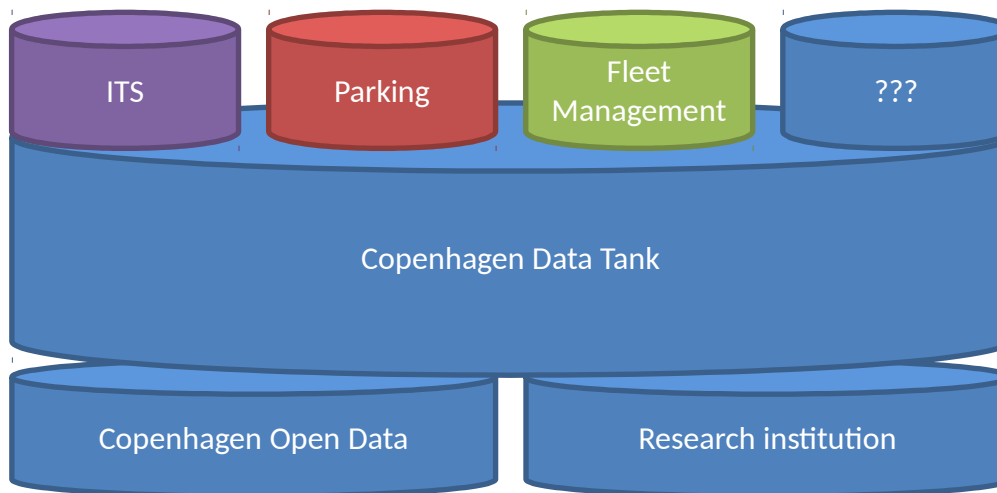

- Made for real time data

before

- Silos
- Costly and inefficient

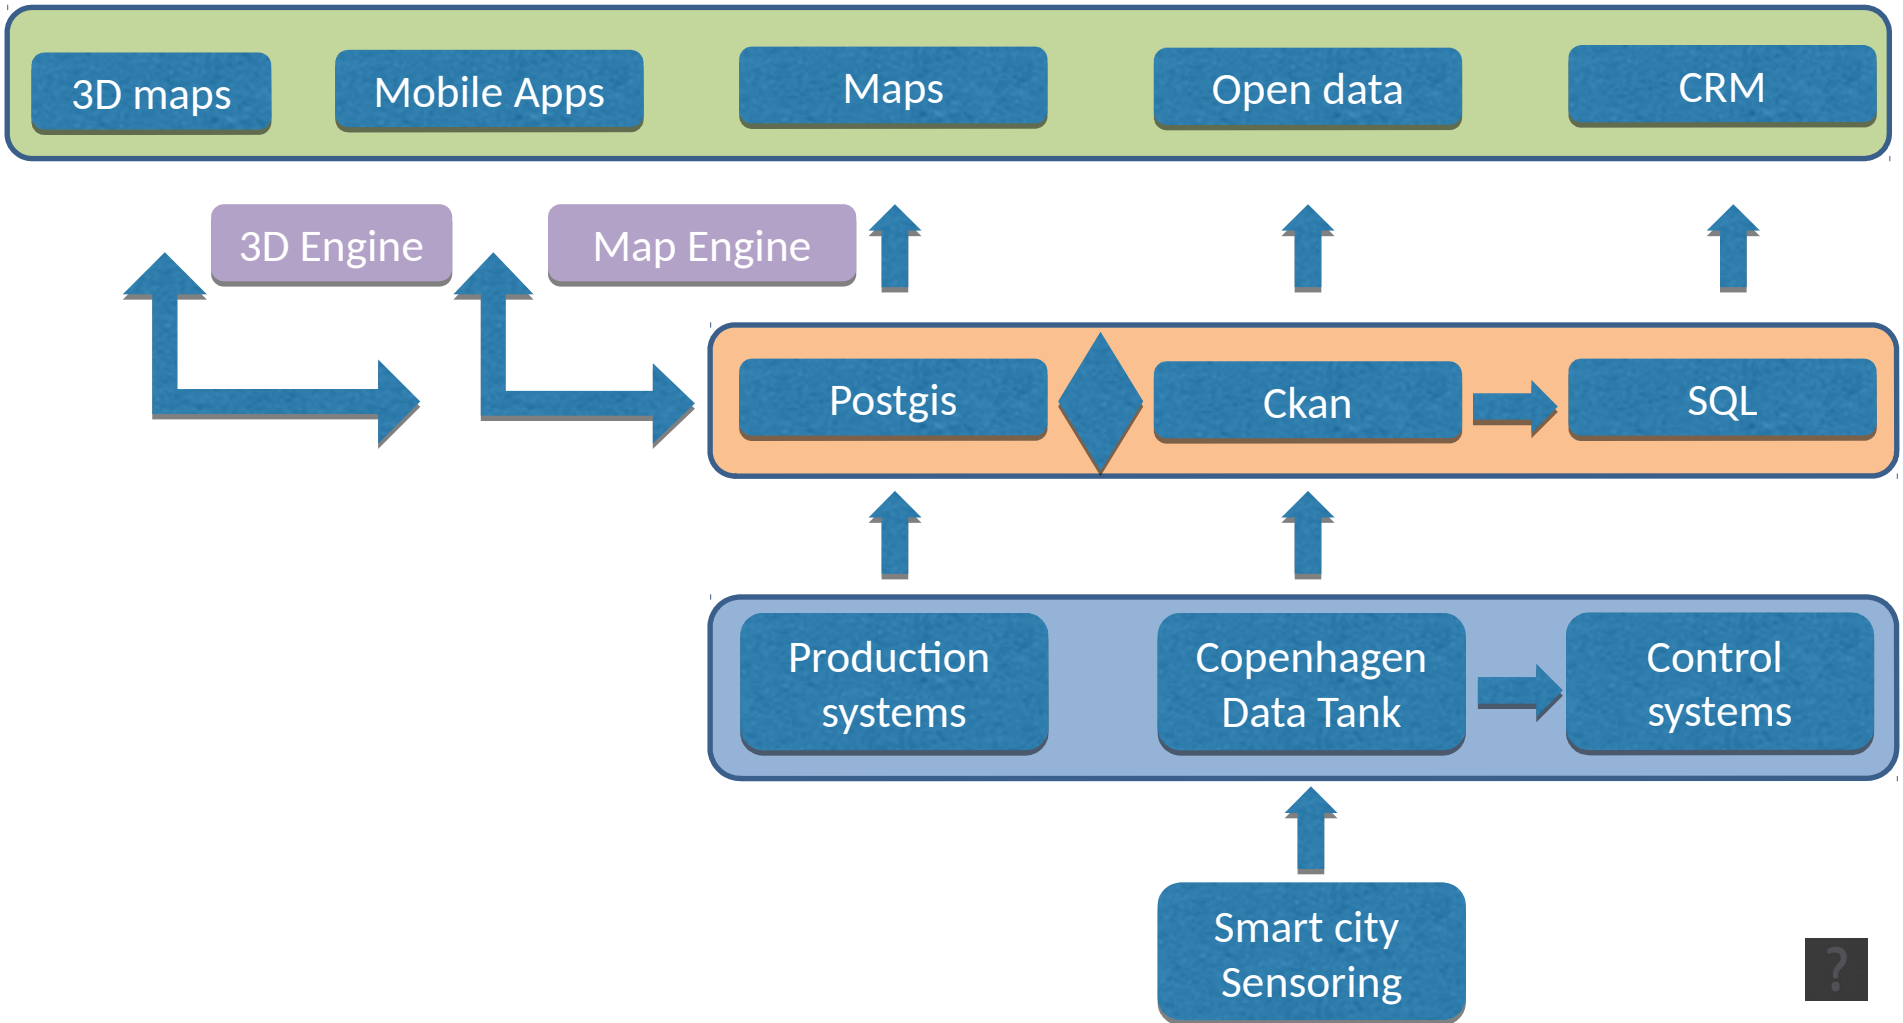

After

- Combine storage and collection of data
- Ruse and optimization of resources and data
- Cheap and effective

Open Government - an integrated approach

Value Proposition

- Refer interested parties to Open data DK
 - Saves time and money
- Using APIs and data
 - eases development time and access
- Internal access to data
 - Simplicity
 - The right (most updated) data
 - Do it yourself
