# Crop Insurance : Slow, costly, & susceptible to manipulation

Satellite Image Analytics assists validation

Insurance as a Smart Contract on Blockchain

Automated by Smart Contract  
+ Near Real-Time  
+ Less prone to fraud  
+ Cheaper

# The BIG Idea : AI + Blockchain

## What?

- A new spectrum of applications can be enabled by combining **Artificial Intelligence** with **Blockchains**.

## Where?

- Processes which are **slow, costly, & susceptible to manipulation** e.g. Insurance

## Why?

- **Transparency:** Secure, Trusted Execution (Blockchains) = Increased Trust
- **Efficiency:** Automated Compliance & Verification using AI = Lower cost, Reduced effort

## How?

- Talk to us.
