

Transforming Business. Enriching Lives.

Capacity Building Geospatial Curriculum

Dr. Shekhar Murthy, President, IIC Academy

Namaste - Warm and Hearty Greetings

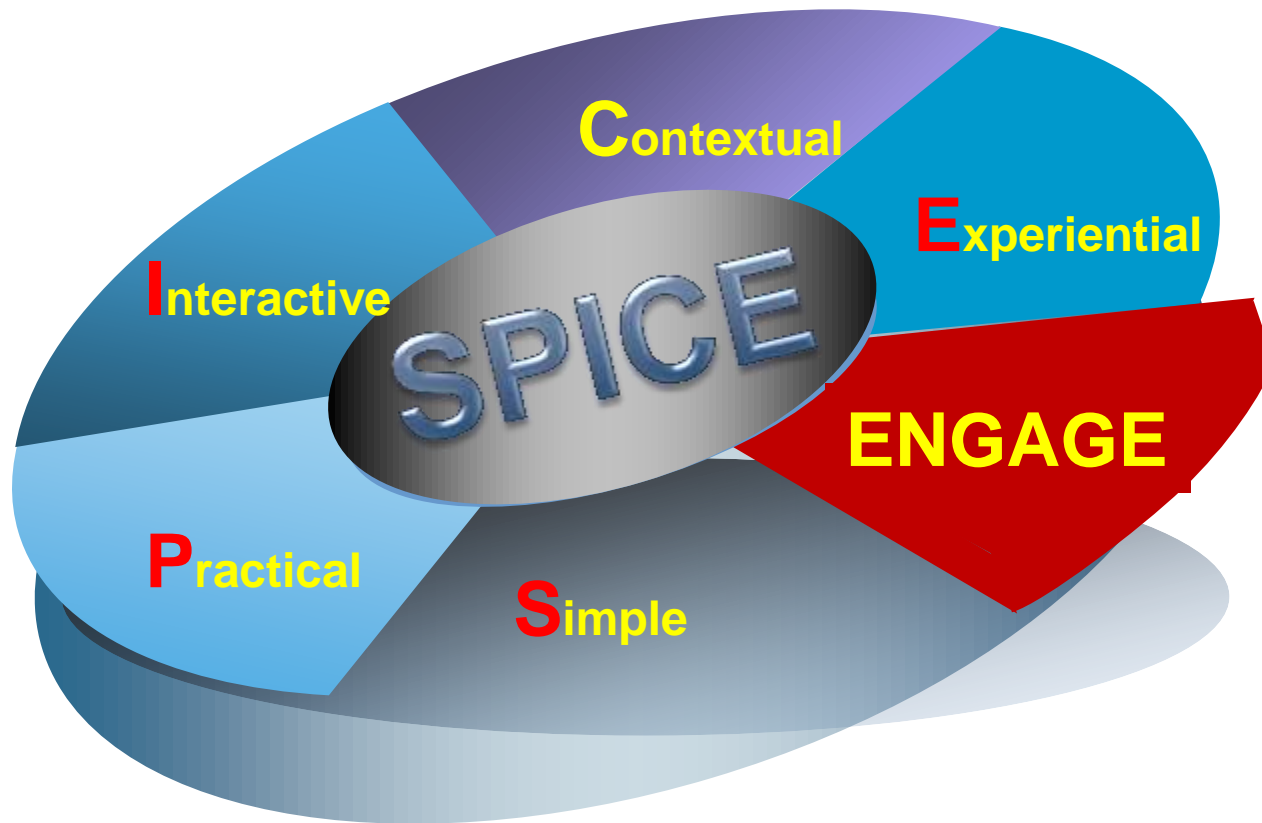

Wish you a glorious 2018

**A map is the greatest epic of all poems.
Its lines and colors show the realization of great dreams.
~Gilbert Grosvenor**

World leaders in terrestrial and marine survey and mapping.
Offer customized training solutions on geospatial sciences and surveying.

Adding spice to learning

Core elements

Industry-Focused Programs

Flexible approach, Anywhere, Anytime

Practice-driven, Experiential Learning

Aligned to Customer's Need

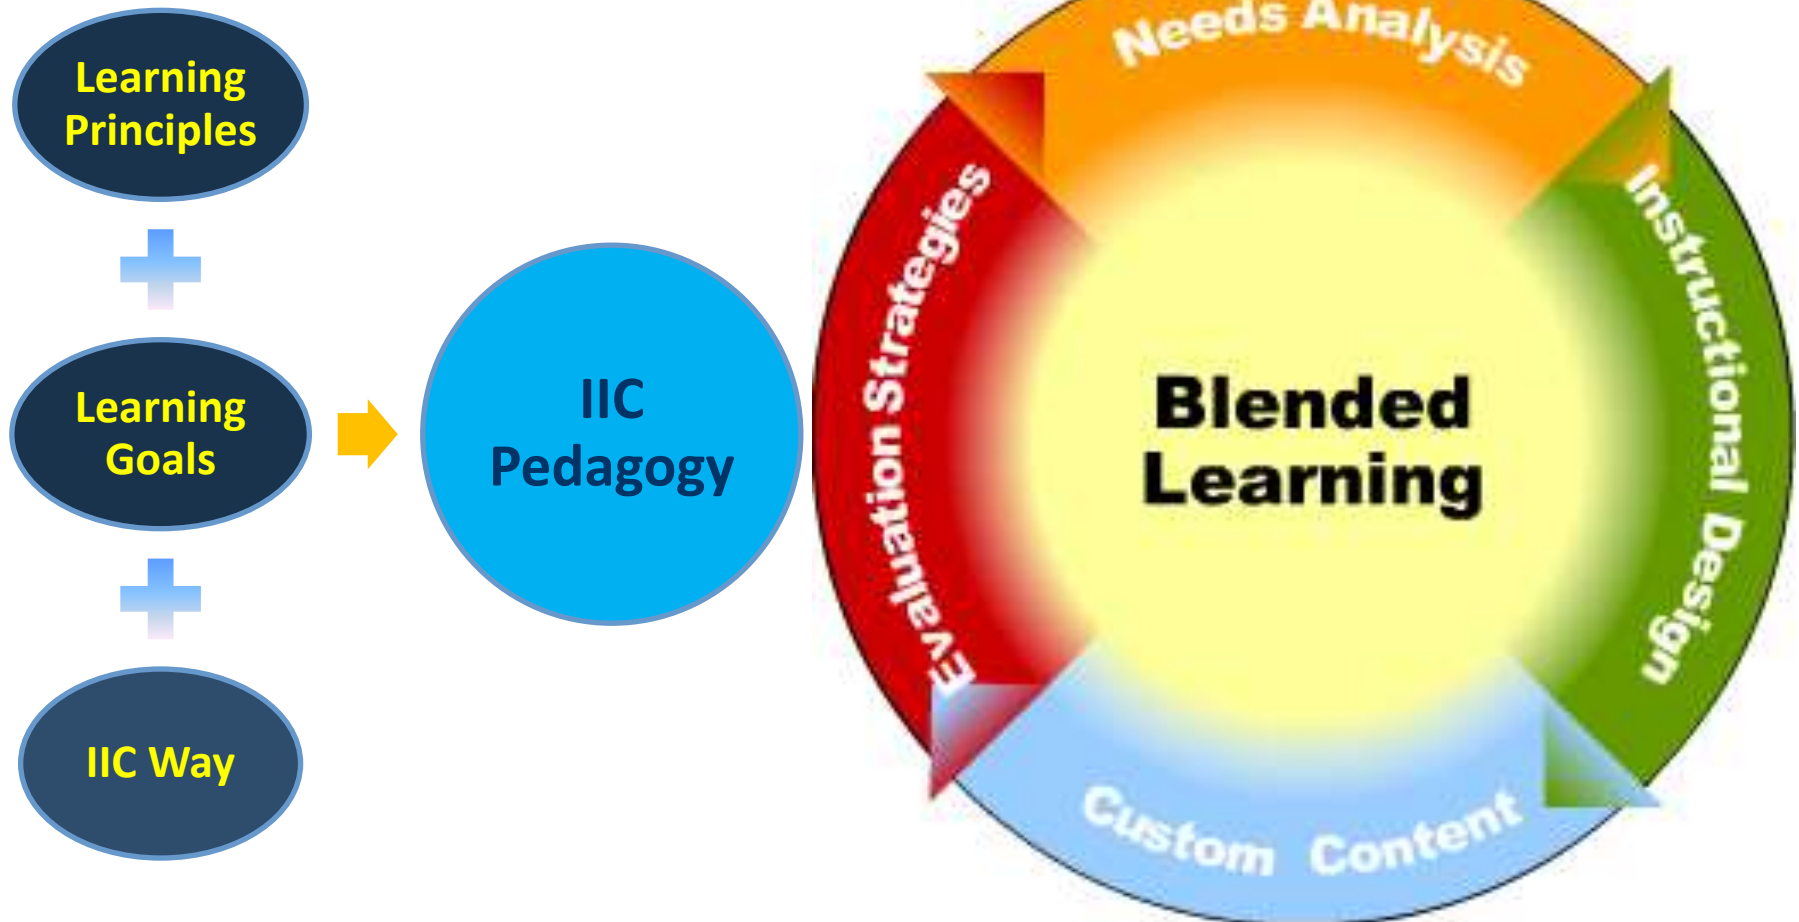

Best of the Breed Faculties

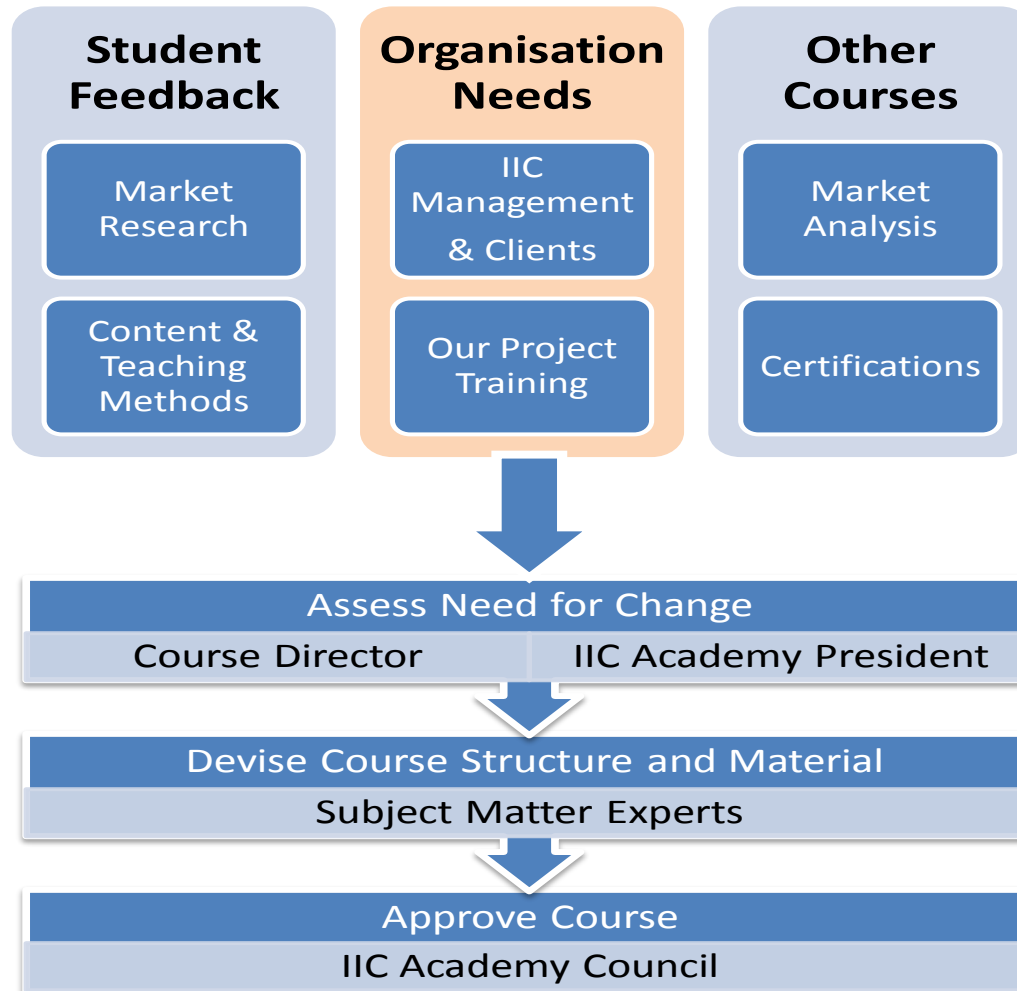

International Accreditation

Pedagogy

Learning need analysis

Learning design

Competencies

Knowledge:
conceptual,
technology,
processes
and standards

Skills-in-
demand: hone
and sharpen

Abilities:
acquire and
grow

Behavior

Internalize
and
transform
competencies
through:
actions,
thoughts, and
feelings

Outputs

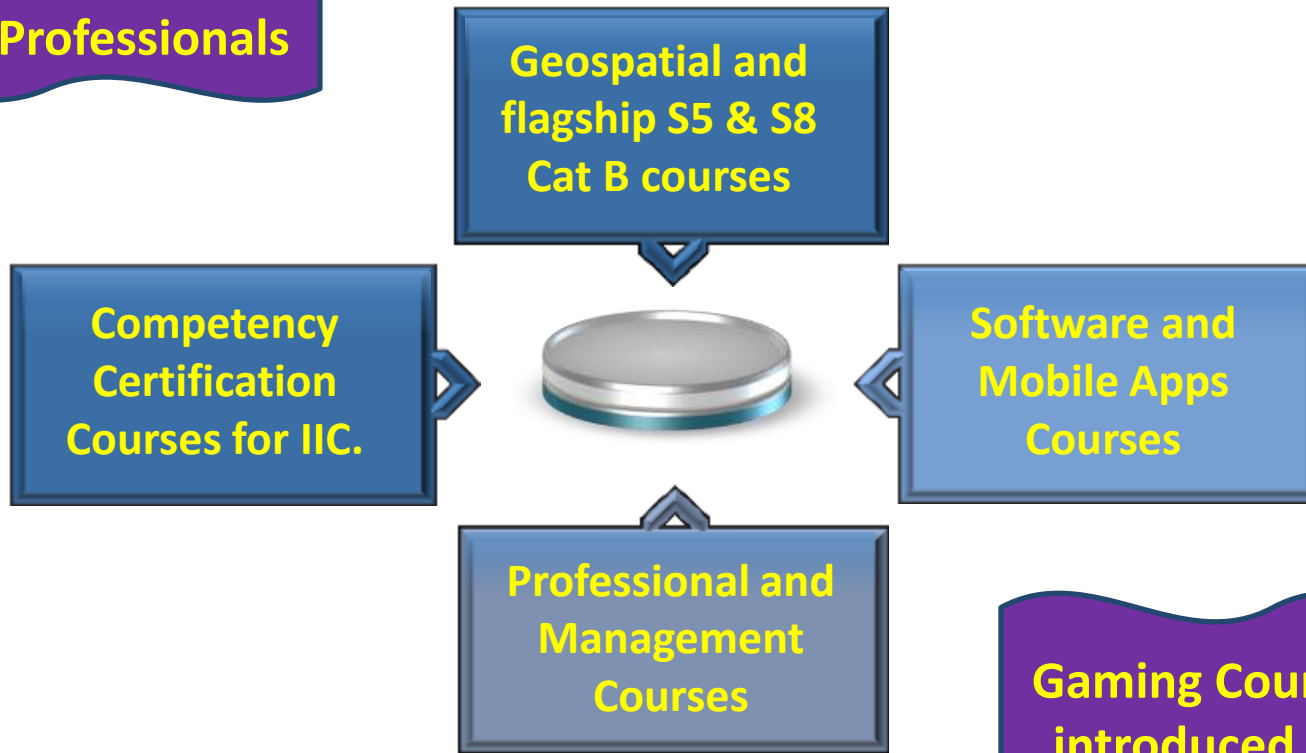

Convert
consistently
demonstrated
behavior into
world-class
services and
products

Results

Quality of
outputs
determines
results in
terms of:
return on
expectations,
brand-
excellence,
and market
presence

Service offerings

**Weekend Courses for
working Professionals**

**Gaming Courses to be
introduced as a USP**

GeoFun

“GeoFun” is born out of IIC Academy’s love for nature! The nature’s landscape is perhaps the best learning playground where children can unfold their creativity, and unravel their potential, naturally.

The objective of this program is to foster interest amongst children on aspects of geography, mapping, surveying, environment and climate. The program has two components: (a) Surveying, and (b) Cartography

GeoFun – Kindle Book

**New
Release
Available
in Amazon**

**Workshops for
School Students
can be conducted
at a nominal fee
over three-days at
School Campus**

Global Coverage Participants

Over 5000 participants, 20 countries, 15 Courses
