*“ We believe we are entering what we call the insights economy where those companies and governments that leverage unique and **actionable insights** will create **competitive advantage** by identifying and **adapting** to events quickly; manage business **risk**, and **accelerate** investments “*

INSIGHTS ARE
MORE VALUABLE
THAN THE
DATA ALONE

+ TURN PIXELS INTO OUTCOMES

Planet's unique data and insights identify change on a global scale providing companies the opportunity to react in real-time and predict future outcomes

MONITOR DAILY

Daily global imagery enables us to act now

DISCOVER TRENDS

Analyze Earth's activity for meaningful patterns

DELIVER INSIGHTS

Build better models and make informed decisions
