Making SMART Cities a Digital Reality

Raphael Goudard

18 01 2018 - GEOSPATIAL
Problems with City Urbanisation

- Environmental degradation
- Traffic congestion
- Public safety
- Energy crisis
- Crime rates
Actually, What are the areas of a SMART city?
SMART City
DIGITAL
SAFE
CONNECTED
It's about leveraging Technology to serve People
DIGITAL City
The Value of Where
Creating accurate 3D Digital Datasets

Discover the Multi sensor NSV Pegasus: Two
accurate position is in our DNA
SAFE CITY
Mapping Above & Below
Digitising Below Ground
SMART Cities go beyond the surface
CONNECTED CITY
To many it’s about connecting systems & people
Real time visibility & people
To others it’s about Autonomous Vehicles & SMART parking
Thank you
