

Systems Integration And Business Process Embedment Extending GeoSpatial Value Chain

Presented by: Vish Tadimety, *Chairman and CEO*

Jan 17 2018

Emerging Workforce = Tech Savvy

CyberTech WaterOne Team

$$1 + 1 = 10$$

Advanced Spatial Analytics of Enterprise data will deliver unprecedented Business power

We have a Unique Opportunity

Digital Think Tanks drive new Analytics paradigm

Strategic Understanding of Geospatial & Enterprise Data will drive the market

We can NOW become leaders in markets with huge TAM

All levels of the Business gains value from Enterprise Spatial Analytics

Limitations of Current Approaches

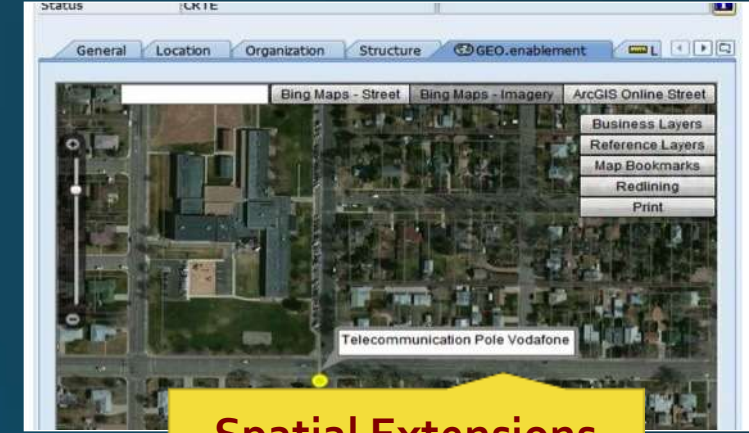

Geographical Information Systems

- Analytics limited to data in GIS
- Disjoint from other Enterprise Systems

Consumer Mapping Platforms

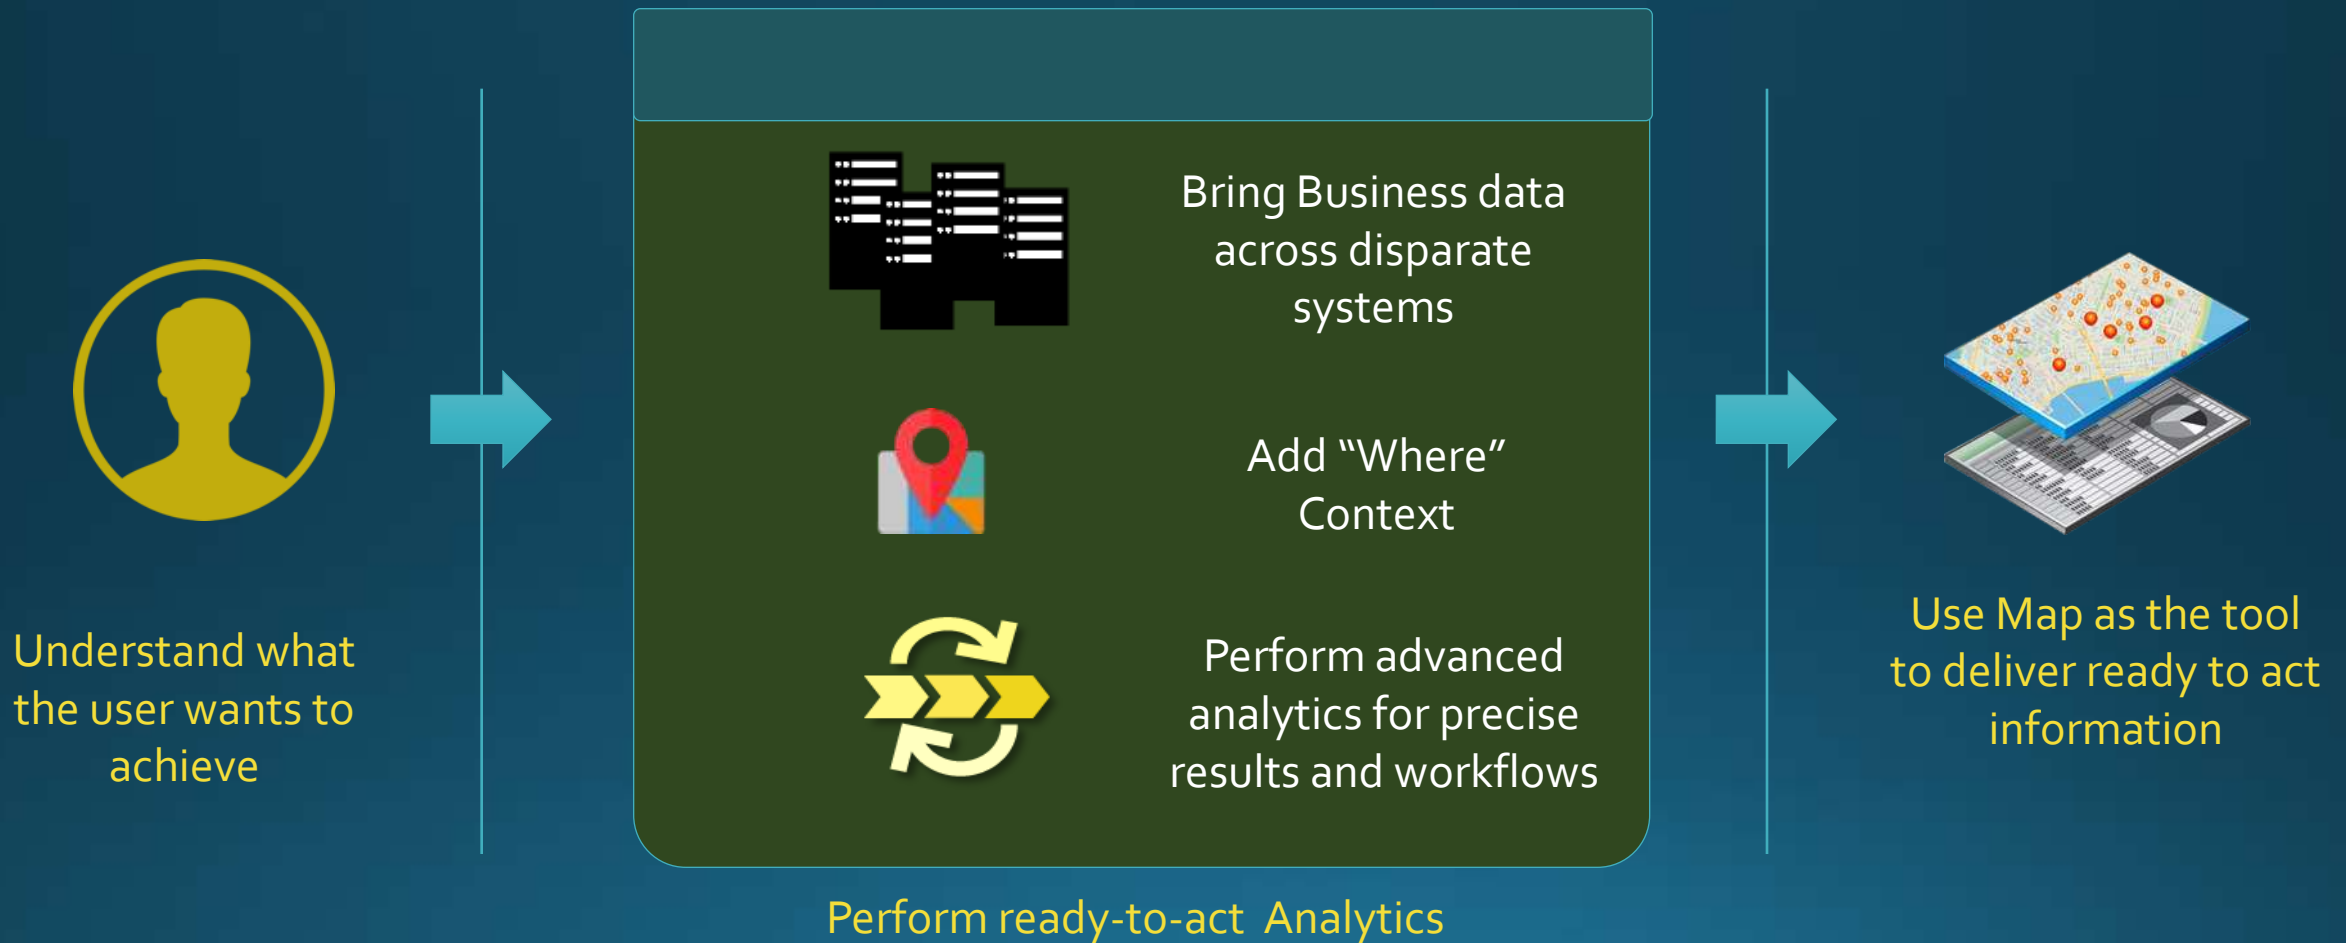

- Limited capabilities for Enterprise specific analytics
- Handles only basic spatial scenarios

Spatial Extensions from ERP Vendors

- Analytics limited to ERP data
- Disjoint from other Enterprise Systems
- Limited geo-processing capabilities

Address this challenge by User-focused Analytics design

Thank You

Vish Tadimety
