'Getting ready for the change'!

Two main themes:

- what is the interconnection between IoT/AI and geospatial technology?

and

- how to set the proper framework conditions to create an environment that will allow business to grow, while addressing public needs as well...

Public interests touched by IoT and AI

Public interest	themes
Data protection	Privacy, data intimacy
Autonomy	Freedom of choice, and speech
Information security	Identity fraud, physical safety
Human dignity	Unemployment, de-skilling
Control over technology	Insight into alghorhythms
Balance of power	Fair competition, vendor lock ins
Others...
