Data driven approaches for sustainable water management

Otto Huisman, Arnoud Wessel & Ivo de Liefde
Tensing and Evides

• Tensing is a service provider in the Geospatial industry, with the aim of *elevating spatial intelligence*.

• Part of a worldwide organization (the Avineon Group) since January 2020.

• Longstanding business relationship with Evides and actively involved in day-to-day geo-related tasks.
Evides water company
Arnoud Wessel
Sr. Process technologist
Data science at Evides
Spatial data

Aerial  Tabular  Documents  Vector  3D  Realtime  Big Data  Lidar  BIM
Water quality forecasting
Intake scenario planning
Biological monitoring
Next steps: non-target screening
Data driven intake policies

Understand complex multi variable processes

Work together with partners along the river Meuse

Reliable and innovative
ELEVATING SPATIAL INTELLIGENCE
