How Mobility as a Service contributes to SDG

Sami Pippuri
MaaS Solutions
@pippuri, sami@maas-solutions.fi
Certified Consultancy for MaaS Projects

MaaS Solutions is an independent company with specialist MaaS know-how. We can ramp up teams for customers just like we did for MaaS Global, Tranzer, WECA and more.

We can also review technical readiness for MaaS integrations, define and help implement MaaS systems into regions, create tech teams and more!
1/4 of global emissions come from transport

40% of carbon emissions are from transportation by 2030

Transport sector is the only sector which has not been able to reduce emissions since the 1990.
20% of a household’s budget is transportation

76% of that is the cost of owning and using a car

96% of time the car sits unused during its lifecycle
of respondents are willing to replace car for some other transportation option for some trips.
